Shane

Liz Phair

I know that it was the night
The war broke out because
You and I were driving aroundYou were doing a story
About if people understood
What had happened to their world

Tonight

In bed

Sleeping

The world tonight

In bed

Asleep

You said that you were in touch

With the draft resistors

In case the big boys called you up

You're gonna have to let 'em

Dick you around

But don't let 'em make

You do

What you can't live with

Tonight

In bed

With me

Sleeping

You looked like you were just a little kid Shane, I said, you've got to watch your assYou've gotta have fear in your heart (x8) Fear in your heart.
